2. Examiner's Statement of Reasons for Allowance:

Applicant(s) invention relates to a control system, and more specifically, to a clamp pressure controller for a vehicle transmission.

The vehicle variable transmission is combination with a generator has a transmission belt clamp pressure controller. The clamp controller increases clamp pressure to reduce transmission belt slippage when there is an increase in mechanical load on the transmission.

There are inventions in the field that provide similar functionality and/or have similar features, as prior art of record shows. Applicant(s) invention differs from the prior art of record by the specific features, which are responsible for the control of the belt clamp pressure. These features in combination with operational elements of the vehicle provide performance, as was disclosed and claimed, and which examiner's search failed to find.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
